I am an over the road truck driver and the weather and traffic channels are a great help. would you rather i chase channels in these major cities while trying to drive or have access at basically one touch before i get into the awful traffic in these larger cities. I feel my attention is much better spent on the road and traffic around me. plus if i know in advance of weather or traffic problems i can adjust my route or schedule accordingly. Plus I feel I choose to pay for xm, and that is a large part of the reason why. and for commercial free programming, and the choice to listen to what i choose. please reject NAB's petition 04-160. thank you. mariah
